For the past 35 years, The Phoenix Center has provided an exemplary level of educational services for students with autism and multiple disabilities, changing the lives of hundreds of students and their families. We would not have this success without our school community, parents and staff, and of course—our donors!

TPC's Contribution Cove, our giving wall, is a beautifully painted underwater ocean scene filled with various fish as a way to commemorate and memorialize the generosity of those who have helped build our school and continue to help realize our mission for many years to come.

Those who fall in to any of the below giving categories will have their name inscribed on a beautiful fish and added to *TPC's Contribution Cove*. This wall is proudly displayed in the main entrance of our school. If you have given in any of the below levels since 2023, your name is proudly displayed in our cove!
